

Hyperlinks and URLs

Link Tester

April 13, 2026

1 Web Links

Visit the official Python website at <https://www.python.org> for the latest Python releases. The PyMuPDF documentation is available at <https://pymupdf.readthedocs.io>.

2 Named Links

For more information, see the [PyMuPDF GitHub repository](#). The [FastAPI documentation](#) provides excellent tutorials. You can also check the [pdfplumber documentation](#) for table extraction details.

3 Email Links

Contact the maintainer at developer@example.com for support questions.

4 Internal References

See Section [5](#) for the conclusion. See Table [1](#) for a summary of all URLs.

Table 1: URL Reference Table

Resource	URL
Python	https://www.python.org
PyMuPDF	https://pymupdf.readthedocs.io
FastAPI	https://fastapi.tiangolo.com
pdfplumber	https://pdfplumber.readthedocs.io

5 Conclusion

All hyperlinks should be preserved in the Markdown output using the standard link syntax: `[text](url)`.
